- (A) The Town Administrator is hereby authorized to impose mandatory water restrictions, as described below, on the usage of water obtained directly or indirectly from the water distribution system of the town by declaring a water distribution crisis. This declaration shall be based on written recommendations from the Director of JCDPU that conditions exist such that a water shortage is imminent.
- (B) The Town Administrator may implement a water distribution crisis by signing a notice of declared water distribution crisis. The notice shall be in effect beginning with the date and time specified in the notice, and the restrictions imposed shall apply during the times specified in the notice.
- (C) During a declared water distribution crisis, each of the following uses of water obtained directly or indirectly from the town water distribution system are prohibited:
 - (1) Watering of any grass, lawn, shrubbery, flowers, or other vegetation; provided, however, any person or entity regularly engaged in the business of the sale of plants will be permitted, with approval from the town, to water plants grown for sale;
 - (2) Filling, refilling, or otherwise adding water to any swimming pool;
 - (3) Washing, rinsing, or cleaning any automobile, truck, van, motorcycle, or other motor vehicles or trailer; provided, however, that any person or entity engaged in business of washing vehicles will be permitted, with approval from the town, to continue this activity; and
 - (4) Washing, rinsing, or cleaning an exterior wall, floor, or paved areas.
- (D) Declaration procedures:

- (A) Upon the declaration of a water supply shortage as provided in § 51.03 through § 51.06, the town shall have the authority to adopt shortage water rates designed to conserve water supplies.

- (B) The rate may provide for:
 - (1) Increasing block rate: higher charges per unit for increasing usage;
 - (2) Uniform unit rates: uniform charges for water usage per unit of use;
 - (3) Excess demand surcharge: charges for use in excess of a specific level; and
 - (4) Good citizen rate: discounts for conserving water beyond specified levels.
(Ord. passed 4-5-2011)

§ 51.09 VARIANCE PROTOCOLS

At times during a water crisis it may become necessary for water usage within a class addressed by the declaration. In this event, the following procedure shall be followed:

(Ord. passed 4-5-2011)

§ 51.10 RETURN TO NORMAL

When water shortage conditions have abated and the situation is returning to normal, water conservation measures employed during each phase should be decreased in reverse order of implementation. Permanent measures directed toward long-term monitoring and conservation should be implemented or continued so that the community will be in a better position to prevent shortages and respond to recurring water shortage

conditions.

(Ord. passed 4-5-2011)

§ 51.11 EFFECTIVENESS

It is of critical importance that the effectiveness of this plan be monitored to ensure optimal impact on water conservation. Upon the issuance of a water shortage alert or water shortage emergency, the Town Administrator shall document the water usage by comparison of previous month billing from JCDPU to current billing during each month the water shortage is in effect. Fluctuations in the amount of water purchased from JCDPU, on the month to month comparison during the shortage, will determine whether this chapter is effective in saving water.

(Ord. passed 4-5-2011)

§ 51.12 REVISIONS TO THIS CHAPTER

This chapter will be reviewed and revised as needed on an annual basis. Should this chapter need to be revised and/or expanded to meet the needs of the town, a meeting will be held with the Town Board to approve changes. The request for the hearing shall be made before the cut-off date. A prompt conference with the Water and Sewer Commissioner will be held.
